Better Safety Record Goal For This Year

Announcement of the opening date of the new school term is an occasion to review all details of motor vehicle operation with an eye toward reducing the number of accidents which claim the lives and limbs of children who are preparing to attend schools.

It is the purpose of this column to acquaint all parents with the importance of the safety record which is established by children who are making their first day of school attendance.

The recent accident which resulted in the death of a child who was crossing a street while being chased by a car is a reminder of a tragic situation which could have been avoided.

Children need to learn the importance of traffic safety while they are still at home. It is the responsibility of all parents to ensure that their children are taught the proper procedures to follow when crossing streets.

Casual

Teenagers take the casual approach to extracurricular activities, in informal Bermuda shorts, with sweater and knee-highs of tan or gray.

College Costs

Average cost of a year in college is now estimated by educational authorities to be between $1,500 to $2,000 a year in private universities and $2,500 to $3,000 in private controlled schools.

The tuition has nearly doubled since today's high school students were born.

Similarly, the number of college graduates who earn part or full time income while in school, has increased vastly.
