Chevrolet shows you some important differences in low-priced cars just by the look on its face!

Chevrolet’s new look sets you apart in a hurry. It’s so sharp, so fresh, so different, you can’t be missed. There’s nothing else like it. It’s the subject of your own personal survey.

With only one glance, you’ll see the differences that make Chevrolet stand out. You’ll see the new look in the stylish shape of the car itself. You’ll see the new look in the color of the bumper and backfender. The fit of the chrome, the cut of the lights, the curves of the body. You’ll see the new look in the way it’s put together. You’ll land for instance, that Chevrolet is the only car in its field with a squared finish... that only Chevrolet Bel Air cuts gives you foam-rubber in front and rear seats, and standard equipment. These are just a few of the advantages of body by Fisher. And Chevrolet, you know, is the only low-priced car that has a Fisher body.

We’ll be glad to give you a close-up, informative look at this new Chevy any time you want to come in. This week, maybe?
