10 Special Assessment Areas Okayed: Void 2

**SOUTHFIELD—This month should be called “special assessment month” in this city because a large number of assessments have been made as a result of the recent water system improvements.**

Recently, the township board issued several special assessments for various water system improvements. These improvements include the installation of new water mains, the replacement of old water mains, and the installation of new water meters. The assessments have been approved by the Board of Commissioners and will be collected over a period of time.
