Here's the Trick

It takes only five minutes for Joseph John Granda (left), sometimes aided by Karl Schuh, to transform a room from drab to colorful and attractive. From a large wall at the rear of the house, they cut the paper back to the ceiling and then to the floor, pasted it on the walls and painted it in a variety of colors. After setting aside the commissionaires' tables, they set the women in place. Three sections of a platform are stored under the center board, interlocked side by side on the floor, to form a platform for the judges' chair. One of the custom-built quick-switch set-up was $1590. The price included all the commissionaires' tables, the judge's bench, and matching tables on either side for press and the city attorney's use.

PEOPLE'S COLUMN

Public Hearing

I sat, I listened, I left dismayed; The Citizens voted yes ignoring opposition displayed, Procedurally expressed.

A public hearing, they call this; Where taxpayers speak their view;
Yet all they do, is pious,
Their minds closed to review

The City Commissioners, they govern;
Our opinions they despise
A line, not well-quoted;
Against us, they composed.

Our gift, we have the franchise;
To elect a man of choice;
Our lack, is that we can't vote;
'Fraid we won't listen to our voice.

Dee Elmore

This was a result of the City Council hearing next night (Aug. 1).

Runaways Returned

Blessfield Hills police returned two runaways from Prince John's Sunday.
They were the boys who ran away when stepped on by Miss Robin.

Be Certain Your New Baby-Sitter Knows Precautions

Fire smoke at all hours of the day is a common sight in the city, which is why the police are on alert. When children were last seen, they were believed to be safe until their parents were reached.

Children's safety should be left in the hands of those who know them best. Today's supervisor often has to protect the safety of the child, especially if he is under the age of 10. There is a chance of being left alone, but there are many precautions that can be taken to ensure the child's safety.

1. Turn down the thermostat as much as possible.
2. Be sure the child is not left alone with any other children or adults.
3. Be sure the child is not left alone with any other children or adults.
4. Be sure the child is not left alone with any other children or adults.
5. Be sure the child is not left alone with any other children or adults.

Two men stepped on the child, who was left alone with the older children. One parent was called, and both were left at home.
