**Franklin Tables Road-Treating Permits**

To Study Matter Monday

BY NITA HARD

Franklin — Although the Franklin council held a special meeting Monday to consider applications for permits to treat local roads, the matter was tabled pending the final legal clarification of a July 8 resolution.

Council divided in its interpretation of the law, which reads, "in favorably consider applications for permits to treat local roads," while some felt the word "favorably" contained an implication that all applications would be granted.

COUNCILMEN Deyo Ita and T. B. West were in favor of granting the permits, and they acquiesced to table the matter pending a period of discussion. Councilman Deyo later stated that further discussion would be necessary before a decision could be made.

COUNCILMAN West maintained that the council's decision should be made at this time, and he would submit an amendment to the July 8 resolution to clarify the council's position.

COUNCILMAN McCall also favored granting the permits, stating that the road treatment would benefit the entire community.

COUNCILMAN Deyo, however, pointed out that the council had already approved the permits in July, and he felt that the council should not reconsider the matter at this time.

COUNCILMAN West agreed to table the matter and discuss it further at the next council meeting.
