Open 'til 9:00 'til Christmas except Christmas eve.

B-58 BUICK

It begins with a greater use of aluminum -and takes off from there

ONE IDEA sparked the creation of this B-58 Buick —and that was to build it with more aviation principles than ever before.

So this one starts with a greater use of airweight aluminum — inside where its special cooling properties can be used — outside where its beauty and protection are needed.

But wait till you see what else is here to make land travel as modern as air travel.

The first automatic transmission to use the infinitely variable pitch stator principle of today's strato-cruisers.

The most modern engine it is possible to build for today's fuels.

A Buick-engineered air-suspension ride that literally floats you on four columns of air.

Want to know more? See more? Do more? Drop in on your Buick dealer and guest-pilot an Air Born B-58 Buick — today.

*Buick air ride optional at extra cost on all Series. Flight Pitch Dynaflo standard on LIMITED and ROADMASTER 75, optional at extra cost on other Series. Aluminum Front Brakes standard on all Series except SPECIAL.
