WE DON'T BELIEVE
that the birds fill those air pockets in their bones with seeds—medical opinion to the contrary not withstanding.

that the last freeze of winter has been had. And if, as we believe, some more is or are coming we suggest that after it or there has come it, would be wise to cover the perennials, bulbs, young evergreens and shrubs etc. with MARSH HAY.

that it is too early to start BEGONIAS, GLOXINIANS and some SEEDS at this time.

that The ECCENTRIC has the reader coverage they claim because of the lack of interest shown in our ads on DORMANT SPRAYING and PRUNING.

that the merchants of Birmingham take enough personal interest in NATIONAL AFFAIRS — such as SECONDARY BOYCOTTS, enactment of the HOOVER COMMISSION recommendations, RIGHT TO WORK LAW with regard to the right of states to outlaw compulsory unionism.

that this is the time to stop feeding the birds. We have lots of feed on hand and the birds need it.

that this is not a perfect time to apply 2 pounds of 10-6-1 fertilizer to your lawn. At this time there is no burning, no loss and perfect coverage (especially if there is a bit of snow on the ground).

that you should try to start seeds, cuttings, slips etc. in just any old pot or saucer when you can buy PERMANENT SEED STARTERS, LIGHTS, TIMING DEVICES, VERMICULITE, POTTING SOIL, and WHATNOT at a nice little shop we found at 850 South Woodward. Gosh! They have everything!

that you can remotely imagine the joy and good smell deriving from the growing of Lily-of-the-Valley from the DANISH PIPS we have.

that you know that almost 4 tons of wonderful clothing for Hungarians moved through our warehouse under the able management and inspirations of Mrs. Robert Schilling. Salute!!

that you cannot cut branches of forsythia, apple, pussy willow etc. for forcing indoors. It's a cinch.

that you haven't had your lawn mower conditioned for spring.

that you don't know, or realize or believe that our shop CLOSES AT 12:00 NOON on WEDNESDAYS.

that a tree girdled by rabbits cannot be saved by wrapping with TREEWRAP to prevent drying so that bridge grafting can be done in the Spring.

that you are as innocent as you seem when . . .
that you don't know a—
that there are many—
Well, that's that!
