a bonus can backfire

When a bonus comes in the form of something you can put in your bank account, then it's all to the good. But when a bonus is an "extra" of something you don't want and don't need...then it backfires.

Some shirt manufacturers give you a bonus of material here and there because the manufacturer is trying to cut expenses by not devoting the time and skill necessary to properly taper and tailor the fabric. You've seen shirts that bunch around the middle...with big folds of fabric under the armholes and around the collar. That's what happened.

But, with our favorite shirts, tailored for us by EXCELLO, you get only the kind of bonuses you're always looking for: perfect fit, smart looks. For only EXCELLO molds shirts that are truly "your form in fabric"...sleeves set in at the natural angle you hold your arm to eliminate surplus material under the your arm, across the chest and under the collar. You get a smooth, neat look...plenty of fullness in the back where you need it for action...the yoke cut on an arc to follow natural shoulder movement...EXCELLO's exclusive Bell-Front lap-over keeps shirt tails from riding up...single-needle tailored, lock-stitched throughout. Large ocean pearl buttons add a luxury touch.

No unwanted bonuses of material in an EXCELLO...the shirts that are "tailored like a jacket".

For a new experience in shirt comfort and fit, we invite you to try on an EXCELLO shirt today!
