Brand-NEW DYNAFLOW PERFORMANCE—Instant Response—even without switching the pitch

WE'LL tell you frankly—we're proud of this car and the price level you see published here.
 Only a few dollars more than the price of a smaller car—for a big and brawny Buick! But that's not all!
 Do you know this spanking Buick is new from the rubber up?
 Do you know it has an all-new body—and a windshield with more than 200 square inches of new visibility?
 Do you know its roof line is inches lower—yet there's full headroom, leg-room, footroom for six passengers?
 All this took some great engineering. But where the engineers went

all out was in making this the dream car of the year to drive.
 New engine—new steering—new ride—response—new steering—new ride—more than 150 other chassis changes that make this, in fact, the most completely new Buick in years—offered at a price level that makes it literally true: if you can afford any new car you can afford a Buick.

And what a buy you'll get for your money! See your Buick dealer, take the wheel—and find out for yourself.
 *New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
