but they can be deceiving. For example, almost

but they can be deceiving. For example, almost ady man can look neat and well-turned-out five minutes after he puts on almost any make of white shirt just back from the launday. But how does he look in that shirt an hour later... five hours later... by the end of the day? That's where the true test of the quality of the tailoring and fabric that goes into a shirt really shows up.

If the shirt looks wrinkled and saggy and bulges at the middle or bags around the collar... then it's not one of our famous EXCELLO shirts.

mat one of our famous EXCELLO shirts.

EXCELLO shirts are the only shirts made that are adjually "tailored like a jacket". They're hand-cut for precision to give you your "form in fabric". Sieves are set in at the natural angle that you hold your arm to avoid an unsighily excess of material under the arms and around the collar. EXCELLO takes away the extra material in the frinit to give you a smoother look... adds it to the back where you need it for ease of action. EXCELLO cuts each yoke on an arc to follow the natural curves of the shoulders... and each shirt sijfinished off with fine detailing like single-needle construction, lock-sitching. Isree ocean-

needle construction, lock-stitching, large ocean pearl buttons.

Come in today and let us show you how you can make a terrific first impression as well as a terrific labiting impression...by dressing in the best-looking, most comfortable shirts made...
