BELIEVE IT OR NOT
This is written for your safety, edification and enjoyment.
Sprays and Dusts are important in the production of satisfactory plants of all kinds. Every word on every label on every container must be read carefully by the user in order to protect himself and others and pets and to obtain worthwhile results.
Here are a few specifics we feel it important to mention. You should:—
1. Stop spraying fruit trees with residual materials (such as DDT) about 30 days before harvesting the fruit.
2. Stop using Black Leaf 40 (nicotine sulphate) on all vegetables 7 days before harvest.
3. Do not spray orthox fungicide when temperatures are over 80 degrees. Early morning spraying is best.
4. Never use Ortho's ISOTOX on root crops on the foliage of white or sweet potatoes or on vegetables within 30 days of harvest.
5. Don't miss the bargain in barbecue carts —20% off!
6. Orthos or any other all purpose rose and flower dust should not be applied when temperatures are over 90 degrees. Do it in early morn or evening.
7. Sulfur should not be used on cucumbers, squash, melons or other cucurbits.
8. Bordeaux is not good on peaches or Japanese plums. Add hydrated lime when using on apples. Better to use something else.
9. The drift of Dieldrin sprays can kill all the fish in the pond.
10. Use of arsenate of lead should stop 30 days before harvest of food crops. Don't use it at all after the heads form on lettuce, cabbage and all edible "heading" plants.
11. Use your head and acquire a CROQUET SET at 20% off.
12. Stop using DDT on food crops 30 days before harvest—60 days on grapes.
13. Second feeding of lawn should be done immediately if you forgot it. If brown patch or dollar spot appears in lawn spray them with TERSAN.
14. Transplant iris, oriental poppy, madonna lily, mertensia, lily-of-the-valley. Also peony and bleeding heart clumps can be dug and split for transplanting.
15. Azaleas, rhododendrons and needled evergreens may be killed this winter if they lack water at this time. Water the ground and spray water on the foliage.
16. Put calcium chloride on the drive to kill weeds and lay the dust. If you have any left cover the turnips, rutabagas and parsnips about 2 inches deep.
17. Yes, we know it's hot!
18. All the more reason to get a grill and all the fixin's and do your cooking and eating out-of-doors.
19. We failed (apparently) to inform you that our shop is . . .
CLOSED ALL DAY WEDNESDAYS
20. Next week—we have no idea what's coming up. Why don't you ask us some questions?

Looking over the grounds at Cranbrook Cranbrook House, the scene of the Sunday afternoon concert, are (from left) Clyde P. Crain, Jr., Mrs. John W. Sanders and LeRoy W. Dalberg.

Cranbrook Gardens Are Scene Of Afternoon Concert Series

The last of Cranbrook Garden Concerts summer series will take place Sunday afternoon at 5:30 p.m. in the gardens at Cranbrook House. The program has been planned by Clyde P. Crain, Jr., and Paul Olefsky.
Marilyn Colow, soprano, who appeared on the June 23rd program has been asked again by popular demand to appear with Joann Freeman of the piano and harpsichord.
"THEY will join other Detroit Symphony orchestra principals—Gordon Staples, violin; Eugene Altschuler, violin; William Frucil, viola; and Paul Olefsky, cello, in a delightful program of music by Mozart, Torelli, Sibella, Wolf, Strauss, Kreisler, Charpentier, Schumann and Robert Schumann for cello and harpsichord.
The latter will be Detroit premiere and Joann Freeman and Paul Olef the artists.
MISS FREEMAN was graduated from Vassar at the age of 19. She majored in chemistry and mathematics and while at Vassar made weekly trips to New York to study with Carl Friesberg, internationally famous pianist. She has appeared in various recitals and with orchestras in New York, Chicago, and Boston and last month was the soloist with Detroit Symphony orchestra at the Fair grounds.
The garden concerts are open to the public with guests bringing their own blankets or pillows for seating arrangements.

You should know what's causing the **BIG SWITCH** to **THE MIGHTY CHRYSLER**
Most glamorous car in a generation

It's far ahead of all others on all counts!

Just compare the far-in-advance values Chrysler offers you with any other new car you can get for the same money. You'll be surprised. See your Chrysler Dealer for powerful proof. He can show you beyond a shadow of a doubt why the Big Switch is to Chrysler in 1957!

Revolutionary New Torsion-Aire Ride! A brand-new kind of land travel! No nose dives when you stop! No rock-and-roll on turns! Torsion-Aire combines a new rubber-isolated, ball-joint torsion bar front suspension with Orloff shock absorbers and outrigger mounted rear springs. Greatest engineering advance of the year!

New Pushbutton TorqueFlite! Driving was never so easy! Never so much fun! Touch a button on the safe (left side)—the fastest, smoothest, most trouble-free transmission ever built takes over. Most economical, too—Chrysler Saratoga won its class in the Mobilgas Economy Run!

Greatest Styling Advance in 20 Years! Why follow the fashion—when you can drive it? Record sales prove Chrysler's styling the most successful today! It's lower (43 1/2 in.) and longer (219.2 in.) than anything in its price class. And it has the widest front seat shoulder room (61.0 in.) . . . the longest front seat leg room (45.5 in.).

Top Resale Value! It's at a record high and still going up! This is a direct reflection of Chrysler's advanced styling and engineering . . . its great public success. You not only get more for your money when you buy it . . . you get more when you trade it in!
