Youth Committees Survey Franklin's Recreational Needs

FRANKLIN — A new approach to the recreational needs of Franklin's youth was determined this week by the two committees appointed by the Franklin Community Recreation Society. Under leadership of Mrs. H. E. Jones a group of senior high school students are planning various recreational projects for the summer. The youth felt this approach was better than trying a mass approach to the problem.

A similar group of junior high school students meeting under leadership of Jack LeVan suggests that other junior high students get together in neighborhood groups and that these groups could then meet with LeVan to plan over-all activities. Young people interested in this program can call Mrs. Jones or LeVan, for details. Leaders feel this first expression of the young people will probably lead to a more stable program and one that will more effectively meet needs than would a program planned and presented by adults.
