Special Writer for The Birmingham Eccentric

Garden Mulch Available From City

This is a good date to clean out your cupboard, where you store your garden aids. Remember that the best place for that half bag of fertilizer is out in the garden where it can be paying you dividends. You will discover other nuggets of value. When you come across your container of roto-ne, you will remember that you should be taking some cuttings of your choice ivy, euonymus, roses, etc. for 1958 use.

On that utility shelf you will want to have a rooting powder for the promotion of root growth for choice cuttings, tree scar paint, which you can use after your home forestry endeavor, aprays for fungus and insecticides, weed killing powder, covered wire for aiding vines and wayward plant material, plastic buttons to attach to your structure to guide vein growth, plus the multitude of gadgets you

WHY?

John Emery

Do We Like Wavy Hair?

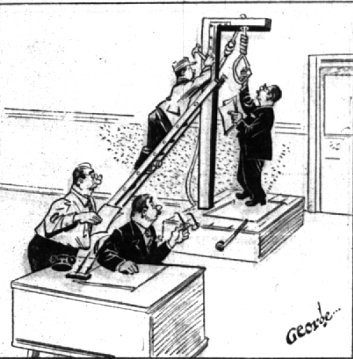

Since Babylon, men and women have sought to soften given features by curling their hair. Baby-faced effect in men appeals to maternal instinct in women. Women want curls because so few have them naturally. Fantastically waved wigs lost favor about time Marie Antoinette, whose hair-do was fanciest of all, lost her head. Napoleon inspired straight hair styles during Empire period. Byron's loose flowing locks revived rage for waves. We have no poets like Byron today—we have singers with Byronic locks. (Copyright 1957, John Emery Ent.)

Mrs. Burlingame

Lucky is the rose fancier who has Gold-Showers in his garden. It is the All American winner for 1957, is a tall pillar rose of daffodil yellow with long pointed buds. This rose will flower until frost. It is highly resistant by its breeding to mildew and black spot. Poles can get sentimental about the fine roses of yesterday, but give me the new introductions, bred for specific characteristics which will give you constant flowers from early in the season until the last killing frost.

Ticklers

The Birmingham Eccentric

News for the home gardener who isn't above carting basketful of material home to benefit the garden. The City of Birmingham has work areas in five centers where they grind up wood into small chips, which can be used as a perfect mulch for your garden for your free use. One area is in Manor Park, near the Grand Trunk R. R. Believe me, this will surpass most commercial mulches for flower beds. Back out the car and away you go to our local gold mine.

July 8 Hearing On Rezoning of Frank St. Frontage

Rezoning of 50 feet of frontage on Frank street, between Pierce and Henrietta, will be considered July 8 at a hearing before the Birmingham city commission.

Owner John M. Rosso is requesting the change from single family to income bungalow, the type of zoning of lots to the west. City plan board recommends the rezoning.

A world of care without a world of strife shut out. A world of love shut in. —Dora Greenwell.
