Trust services are for lots of people

... for people like this happy twosome, for example, who get the most from their moderate means. He's worked hard for what they have, and in many ways so has she, but they take the time to enjoy it. They have ever since his attorney advised him to let National Bank's Trust Department handle his investment portfolio. It was sound advice. It's freed him to devote his full energies to his job and his family. And his job and family are better off because of it. So is his account. Our Investment Agency Service has returned him considerable income over the years. He has also created a trust in his will which will provide similar investment management for his survivors, who may be less experienced in making investments. We'll be glad to talk to you about the many advantages of a trust relationship with National Bank of Detroit.
