85% of the Dirt In Your Home Is Buried In Your Rugs!

Yes, that's what a leading vacuum manufacturer recently stated. This isn't a matter of inefficient vacuum cleaners or lack of care on the part of the householder. It's just that tracked in dirt, imbedded in the fibers or ground into the backing, can't be lifted out with ordinary house-cleaning methods.

Your carpeting and floor mats can be brought back to "like new" brightness and cleanliness in our modern cleaning plant. The latest machinery for cleaning, rinsing, electronically controlled drying and refreshing cycle assure your complete protection and satisfaction.

All you have to do is call LI 7-2922 to find out how inexpensive it is to have softer, more beautiful rugs.
