"SYMPHONY of the Season", consisting of approximately 100 slides, accompanied by music and poetic commentary on tape, was compiled and prepared by Mrs. P. Russell Olin (right) and her husband for the photography division of the State W.N.P.G.A. Assisting with the presentation (from left) Mrs. Angus Mitchell, Mrs. Edw. Sammut and Mrs. Carmen Adams.

Photography Is State Project, Library Available To Branches

Woman's National Farm and Garden Association, ever mindful of the opportunity to serve and better educate their many members for service, have created a new State Division, the Photography Division. After only a little over a year, this Division, under the guidance of Mrs. P. Russell Olin, boasts a large film and slide library, active photography of garden club events and establishments of photography groups in branch work. Believing, like Confucius, that one picture is worth ten thousand words, the complete program at a recent meeting of the North Woods Branch was supplied by the State Photographic Library. ONE portion of the program, entitled "Symphony of the Season" consisted of approximately 100 slides, accompanied by music and poetic commentary on tape. This sequence was compiled and prepared by Mr. and Mrs. P. Russell Olin. This library is available to Women's National Farm and Garden branches throughout the state for programs. It is the hope of Mrs. Olin to broaden so it will cover the many fields of Woman's National Farm and Garden efforts, such as civic improvement, conservation, education, horticulture, junior, international co-operation, and flower-arrangement. Such visual programs would help equip the women of this organization to serve their families, their communities, their state and even their country.

MANY state branches have already contributed to the library. Some in this community are Birmingham, North Woods, Pontiac, Rochester, Northville, Berkley and Wing Lake Shores Young, Olin assisted in her work for the State Division by Mrs. L. E. Carter, Mrs. Heigerson and Mrs. Carman Adams. However, Mrs. Olin is quick to add, "This is one project where every member and every branch can help and in so doing every member and every branch will profit."
