Do Women Wear Necklaces?

First necklaces were amulets worn by men. Strung with bear claw or tiger's saber teeth, they were deemed magically able to transfer to wearer admirable attributes of animals. Man gave adornments to woman when he found them hindrance in hunting and warfare. She made them wondrous, sometimes monstrous things.
 Queen Josephine's diamond necklace hung to her knees. One of Marie Antoinette's was cause célèbre in French Revolution. Tibetan woman needs no hands! From her necklace depend toothpick, ear spoon, tongue scraper and other intimate essentials.
