Let little Renee Johnson explain why to give to the Torch Drive

*I'm 8 years old. Now I know how to say the words that tell what's wrong with me. I have cerebral palsy, and the money you gave to the Torch Drive helped me. Thank you signed, Renee Johnson*

### in fact, there are 195 good reasons WHY to give

—so that a little boy can escape the cage of a four-walled hospital room and go back to the sunshine.

—so that a mother with cancer can fight it off and go back to her family and her home.

—so that young children will have some place to play and learn besides the streets and alleys.

—so that old people will have warmth and comfort and security.

Your United Foundation dollar supports 195 worthy causes in all. It helps the young,

the old, the blind, the mentally ill. And by helping them, it helps all of us—it makes Detroit a healthier, more wholesome city to live in.

And, "once for all" is the most efficient way to give. Just 5¢ out of every dollar you give is required for costs. The other 95¢ does the work you want it to do.

### And here's HOW to give...

**1. Payroll Plan.** You sign a card at work, authorizing payroll deductions—spread over a whole year if you like. That way, you never miss the money. But you would miss the feeling of helping someone not as fortunate as yourself.

**2. Home Giving Plan.** A United Foundation volunteer—one of 35,000 Detroit women who give freely of their time—will call on you. As she will explain, this is your chance to make your own personal gift—separate from the family gift your husband gives. You can give in a lump sum. Or you can space your gift out over a length of time. Either way, you won't miss the money.

### ... And HOW MUCH to give

No one can tell you how much to give. Just give as much as you can... to help little girls like Renee... to show how grateful you are that your family doesn't need the help. Make your gift as big as your heart.
