FALL FACTS & FANTASY

FACT

New York is visited each fall by our revered and respected Mr. Ball. We all think he's quite a lad including the perpetrator of this ad.

Since you are reconciled, after reading such deathless prose, to my brilliant pen (fantasy) let us continue...

It is a fact that you must fertilize your lawn in the fall... in FACT... it is very important to encourage the spreading of grass plants in your yard at this time. This practice promotes a heavier TURF to discourage the growth of weeds.

Be sure to cut your grass until it stops growing. Cause if you don't it will have a tendency to mat under snow and rain.

FANTASY

This is the time to ENJOY the labors of keeping the lawn free from leaves. To make this task much easier you can use the following:

BROOM RAKES (we have plenty)

LAWN SWEEPERS (the best)

STURDY BURNING BASKETS (on wheels)

FACT

With visions of the spring to come, plan and plant NOW. That is, plant OUR bulbs. Mr. Ball described in great detail the new varieties as well as our regular bulbs that we have on display. However, to really enjoy the color of these beauties, come in and select the bulbs of your choice. Flower FANTASY may be achieved next spring if you act now!!

It's FACTUAL that the birds are beginning to set up a clamor for attention. And we are happy to announce that our bird seed prices will not cause any gnashing of teeth, because we are maintaining last year's prices.

Regular Bird Seed—10c per lb.

Cranbrook Bird Seed—20c per lb.

Incidentally, we also have an excellent selection of bird feeders to choose from.

As a final note may we remind you that outdoor cooking is fun at this time of year because of the relative absence of flies. If you haven't purchased your outdoor grill as yet, we have a few Bigboy Grills left at discount prices.

And so-o-o, until I'm called off the bench to substitute again... GOOD PLANTING!!
