WHY?

Are Diamonds Given For Engagement?

Sparkle of a diamond, supposedly, was kindled in the "fires of love." Most durable of gems, it portends a long life of love and happiness.

Romanticists also say betrothal and wedding rings are worn on left hand because it is nearest the heart. Trouble with that is, in some countries, Germany for one, rings are worn on right hand after marriage. Fourth finger nowadays seems universal because least used; it can be extended or stretched only in company with another; thus ring is protected from wear.

Boleslaw Krupinski, chairman of the Polish government's Coal Council, estimates that unexplored coal reserves of Upper Silesia will amount to 60 billion tons.
