58 FORD COMING NOV. 7 Nothing newer

AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A.

The Ford powered over the great mountain ranges of three ranges of the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris couturiers at the famous fashion salons where in "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

The 58 Ford rode smoothly down the rugged, beautiful coast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into Turkey; and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And there along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoons—rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford... has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: In the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value.

This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!
