Modern Woman Plays Many Roles

To The Editor:

About these Speech specialists who recently insisted that if a woman played a 'role', was a phonny in other words, or in plain language was not acting herself, her voice and speech would give her away.

For heaven sake! Haven't these experts read any books in the last couple decades? Don't they realize the moment that preening ring is slipped onto the extended third finger at the altar rail, the bride automatically assumes more 'roles' than Shakespeare ever created in all his dramas?

WITHIN A SHORT period that girl who was utterly herself, and enjoyed it, must somehow learn to be all things to all people at all times!

This includes not only wifehood, motherhood, civic worker, church helper, but if she falls in being a charming hostess to a couple dozen friends at a morning coffee or stumbles while discussing the in-sensational situation with her husband's associates, or, falls along the fairways in a golf match, or

is not a picture of beauty at the breakfast table such as the magazines proclaim is an easy stilt to accomplish and still not burn the bacon, she just isn't being a woman in the fullest sense of the word.

FALLING INTO an easy chair at twilight, after the children, house, civic reports, problems, are tucked away neatly, she sometimes hears a strange voice muttering: "Exactly who am I?"

Without diminishing her affection for her roles in this twentieth century rapid race, she occasionally, glances back to that uncompleted creature who so eagerly extended her third finger for that wedding ring. "If my voice says that I'm not relaxed, well, the 'voices' have it. I'm not. How can I be? When there's so much to do, in a sort of mental way!"
