

The best mornings are those who have met the trying conditions that accompany stormy weather. Likewise, he is a better "slipper" of his whole life if he now and then meets up with situations that try both his head and his heart. It is in rising up from the meeting of challenges that we grow in maturity.

Top Subjects for First Day at School

By FRAN MAIER

These hairdos went to school Tuesday on four Birmingham area youngsters—and, each young lady has her own special reason for wearing that particular style.

Eileen Nubar wears loose natural black curls flowing below the shoulders. The blue-eyed Miss has never had her hair cut.

According to Eileen "Mama wants to cut it, but daddy doesn't want her to—and I'd like it to stay long." I think mama is fighting a losing battle.

The daughter of Mr. and Mrs. Edward Nubar of Vernon drive, Southfield township, Eileen started kindergarten at Beverly school.

A SECOND GRADER at Beverly, Susan Vigi not only knows why she likes short hair, but that she's gonna be a school teacher when she grows up.

The cute brunette says, "I love short hair—you don't get rats and stuff in it."

Her parents are the Leo Vigs of Deemer drive, Beverly Hills.

"I THING they look cute on me" . . . is what Pamela Pajas has to say about her pigtails.

She also commented that mamma cut them once and didn't like them, so we won't do it again.

Pamela also wears her blond locks in a pony tail or flowing in soft curls at shoulder length.

Her parents are Mr. and Mrs. Marion Pajas of Longcrest drive and she attends the new Greenfield school.

IF A YOUNG LADY has never had a real haircut, only trims—you wonder how she can be so sure she would like

short hair.

It is no problem for Penny Groves, daughter of Mr. and Mrs. Melvin Groves of Southome drive, Southfield township.

"I know I wouldn't like it 'cause my sister has short hair, and, I just don't like it . . . it's terrible."

Penny is a second grader at a new school not yet named on Twelve Mile road.

WHATEVER the reason, each young lady is sure she has the most perfect hairstyle for herself . . . and that's what really counts.
