# When Distance Is Always Tempting !

Take a new Cadillac-point its hood toward some distant destination-and watch what happens!

We would be willing to wager that day's end would find you far closer to journey's end than you could ever have imagined!

We say this because we know how wonderful the miles are when they pass beneath the wheels of a new Cadillac—and how tempting distance is when seen through the windshield of the "car of cars".

First of all, imagine how comfortable and rested you would be! The seat-cushions are soft and deep and perfectly contoured. The steering wheel is ideally positioned . . . and the car is wonderfully spacious.

Then consider how easy the car is to handle! It is Then consider how easy the car is to hande! It is incredibly agile and responsive—and wonderfully smooth and level of ride. In fact, if you have selected the extra-cost option of Cadillack air suspension, you can scarcely detect the presence of the road.

And think of your pride and contentment! The very knowledge that your motor car is so highly admired and so widely respected adds its own reward to each and every mile.

You ought to try it soon. Your dealer will be happy to explain the virtues of Fleetwoode coacherafting— and to give you the facts on every model, including the exclusive Eldorado Brougham.
