THESE, AND MANY OTHERS, RECORD FOR RCA VICTOR

Goes without saying that time-tested artists of established reputation for brilliant performance are usually your best buy in recorded classics. And every authority, every reviewer time and again picks the work of the established artist as the yardstick to measure the efforts of newer or less talented musicians.

Cranbrook
Corridor

By Tom Ruth

On Friday, April 11, Cranbrook had its fourth annual science seminar. The seminar was open to all students of Cranbrook and Kingswood took taking a science course lasting throughout the entire day. Students not taking a science were also encouraged to attend when they were free, and many did.

The topic for this year's discussions was centered around the theme "Careers in Engineering." The speakers were: Harold A. Black, an electronics and electrical engineer of Chrysler Corp., Missile Division; William G. Scholz, metallurgical and chemical engineer from Chas. M. Schwab & Co.; Miss Helma Fuhrman, mechanical engineer, Detroit Diesel Engine Division; General Motors Corp.; and Joseph L. Wenzel, an engineering traffic and safety from the Wayne County Road Commission.

THE SPEAKERS each briefly described their jobs and the requirements and point of view of the high school student, placing stress on mathematics, science, and English. Then there was a question and answer session at the end of each speech and a round table discussion at the end of the day.

Howard Kaufman, a Cranbrook senior won a silver key in a statewide competitive mathematics examination given by businessmen, manufacturers and educators.

Howie's prize is \$100 and a four-year scholarship to any school in Michigan, if he chooses to go to a college in Michigan. Kaufman is also a finalist in the national merit awards scholarship competition and leads the senior class academically.

The Cranbrook bi-weekly paper, has been awarded a first place certificate by Columbia University.
