

"To become as a little child..." was one of the important pronouncements of Jesus Christ. Why? A normal child possesses an open, unprejudiced state of consciousness, eager to store up inspiration and knowledge. A child has no pre-conceived convictions, supported by personal pride and stubbornness. A child is trusting and loving, and essentially wants to build his home on Truth's rocks.

Couple Exchange Vows In Soda Springs, Idaho

MRS. RUSSELL D. BUTCHER

Marriage vows were pledged by Carol Lynne Dunn and Russell Deveney Butcher Feb. 1 in a ceremony officiated by the Rev. Lincoln Anderson in the Presbyterian church, Soda Springs, Idaho.

Carol is the daughter of Mr. and Mrs. George W. Dunn, 13303 Sherwood, Huntington Woods. Russell is the son of Mr. and Mrs. Deveney Butcher of Washington, D. C.

Carol, a 1957 graduate of Kingswood school, Cranbrook, attends the University of Colorado at Boulder and is affiliated with Alpha Omicron Pi sorority.

Russell, a 1956 graduate of Millbrook School for Boys, New York, attended Middlebury college in Vermont and is a sophomore at Colorado State university, Ft. Collins.

After a short honeymoon, the couple resumed classes and are living at Crossman hall, University of Colorado.

Tour Caribbean

Mr. and Mrs. John E. Martin of Birmingham sailed aboard the Swedish cruise ship, M. S. Stella Polaris Feb. 17 for a 23-day Caribbean tour. Among the less-frequented ports of call they will be visiting are the islands of the Swedish cruise ship, M. S. San Blas, St. Martin and Barbados.

Discuss Lecture Series

Making final plans for the lesson on marriage are (from left) Mrs. H. Parr, Mrs. L. Donley, Mrs. W. J. McCarthy and the Rev. L. S. Todd, family life committee of Oakland County Extension service. Lectures are to be given by the Rev. Donald Schroeder of the Detroit Council of Churches. March 13, 17, April 10 and 17 at the Birmingham Community House.

Schedule Lessons on 'Marriage'

"Most marriages ought to work out. Sometimes those that end in divorce had possibilities of being successful. Some couples simply quit before the job is complete. As you tackle your life's work you expect training as you go along. Building a marriage that lasts requires some in-service learning too." "These are the thoughts behind our planning of a series of lessons on Marriage," said Mrs. W. J. McCarthy, Family Life chairman, Oakland County Extension service, Michigan State University, as she discussed final plans with her committee.

Lessons to be held in the Ranch room of the Community House, at 8:15 p.m., will consist of two parts, lecture and guided discussion. The lectures will be presented by Donald F. Schroeder, director of Family Life, Detroit Council of Churches, 1933 Third Avenue, Detroit. The dates and topics of each lesson are as follows: March 13, "Helping Children Reach Maturity." A discussion of the developmental growth of the child showing how this growth affects adult adjustments. March 17, "Handling Tensions in the Home." A discussion of the basic principles of mental health as applied to family living.

WHAT DOCTORS SAY ABOUT

- Prenatal Music Lessons
- Stealing
- Tetanus Shots

Q. If a mother plays a musical instrument or sings before her child is born will it help to make the youngster musical?
A. No, you can't give music lessons to an unborn child.

Q. Are some children just born stealers?
A. No. To the average youngster the easiest way to get something is to take it. Any other process seems to him a lot of nonsense. He just picks it up and walks away. Children must be taught to respect the property rights of others. Get the idea across by explanations and rewards for good behavior. Continued misbehavior may be a sign of emotional problems that should be dealt with promptly.

Q. Should all children be given tetanus shots to prevent lockjaw?
A. Yes. In avoiding diseases, an ounce of prevention is worth a ton of cure. Not long ago an 11-year-old girl who had never been given protective tetanus shots hurt her leg on a fence post. Severe tetanus symptoms developed a little more than a week after the injury. Specialists at a large Children's Hospital worked with her for 51 days before she was well enough to be sent home. The hospital bill alone, including special nurses, blood transfusions, etc., was \$2,100. Protective tetanus shots cost only a few dollars. To have tetanus may cost hundreds of dollars, much suffering, and perhaps a life.

Q. Will one series of tetanus shots protect you from the disease?
A. No. The protective substance produced by tetanus shots gradually disappears from the body. Physicians at the Johns Hopkins University recommended taking booster shots every five to ten years. Material in MEDICAL MIRROR is based on various scientific publications and does not necessarily reflect the opinion of all doctors. The diagnosis and treatment of disease requires the skill and knowledge which only a physician can apply by personally attending the patient.

50 YEARS IN DETROIT

1908 + 1958

HORNBLOWER & WEEKS

Serving the Growing Investment Needs of Detroit, its People and its Industries

Fifty years ago Hornblower & Weeks, investment bankers and members of principal exchanges, opened an office in Detroit. The firm, which was founded in Boston in 1888, had previously established offices in New York (1901) and in Chicago (1907).

The new Detroit office was located initially in the Majestic Building, but in 1912 it was moved to its present location in the Penobscot Building. For a number of years the office operated under a manager. In 1933 Mr. James J. Phelan, Jr., became resident partner in Detroit, and thus Mr. Phelan has directed operations here for half of the firm's 50 years in Detroit.

Today the men and women of Hornblower & Weeks, who represent Detroit's senior investment banking and brokerage firm, are proud of the part they have played during the past half century in the progress of individual and institutional investors, corporations and communities of Detroit and the surrounding area.
