

List '58 Oakland Road Work

A county primary road construction program for 1958, covering 29 1/2 miles at an estimated cost of \$1,122,125, has been announced by the Oakland county road commissioners, Sol D. Lomerson, chairman, and Robert O. Felt and Lee O. Brooks.

There are 18 projects in the program, including construction of new 22-foot concrete pavements on Twelve Mile road from Orchard Lake road to Haggerty road, and on Franklin road from Square Lake road to the Pontiac city limits.

Widening of Rochester road to four lanes will be done from Main street in Royal Oak to Fourteen Mile road in cooperation with the city of Royal Oak, and Nine Mile road will be widened to four lanes from Woodward avenue east to Hilton street in cooperation with the city of Ferndale.

Relocation of Haxe Line road through the city of Northville will be started in 1958 in a joint project with the Wayne county road commission.

RECAPING of old concrete with bituminous concrete and widening to 22 feet will be done on Big Beaver road from Rochester road (M-150) to John E. road and on Fourteen Mile road from Rochester road to Dequindre road.

Gravel roads to be blacktopped include Farmington road from Ten Mile road to Twelve Mile road, Baldwin road from Indianwood road to Seymour Lake road and Fenton road from Milford road west to the Oakland-Genesee and Livingston county line.

Grading and graveling is planned on a portion of Anderson road to complete the section from Davidsburg to Andersonville, on Hickory Ridge road from General Motors road north one mile to the previously completed section and on Adams road from Crooks road south one mile to the previously completed section.

Completion of the widening and improvement of the Cass Lake road-Elizabeth Lake road intersection also is assured, as well as several other smaller projects.

FINANCING for these projects is realized from funds received as the Oakland county road commission's share of the state gasoline and weight taxes.

Construction projects on the county local road system will be announced later after agreements have been entered into with the individual townships which must pay one half of the cost according to a new state law put into effect last year.

Construction of new blacktop subdivision streets in Oakland county is expected to run between 50 and 75 miles in 1958, the road commissioners said. All such work is paid for by subdivision developers or, in the case of older subdivisions, by adjoining property owners.

Completes Course

Paul F. Dromann, son of Mr. and Mrs. Julius M. Dromann, 1927 Maryland boulevard, Birmingham, recently was graduated with honors from the eight-week water supply course at the engineer school, Fort Belvoir, Va. Dromann was instructed in the operation and maintenance of portable water purification equipment.

America's leading coal-carrying river, the Ohio, transported nearly 38,000,000 tons of coal in 1956, according to American Waterways Operators, Inc.
