## WNFGA Request Flower Seeds For Hospital

Birmingham branch of Woman's National Farm and Garden Association are beginning a new project in horticultural therapy at Pontiac State hospital under the leadership of Mrs. Sheldon Marston.

They will direct a large greenhouse growing ornamental plants, flowers and vegetables and the gardeners will be over forty young people between the ages of 6-18. It is hoped that a few of these young people will ultimately seek a vocation in horticulture as their way of life.

As the volunteers are starting with a large empty greenhouse they are interested in securing disease free plants, left over seed packets and flower pots which are 6 inches and smaller. Mrs. Dwight Ireland, 564 Pierce will be receiving the materials for this project.

FOR THE LAST THREE years the Birmingham branch has directed the young people in a summer field program where they have grown vegetables and flowers as a unit. They have taken top honors with blue ribbons at the annual 4-H fair.

The members of the garden club have worked beside these young people in the fields in all weather, which has given an important psychological effect and assisted them in the re-shaping of their emotional problems.

Always afterward there would be home made cookies and cakes, plus fruit juice in the shade of the old apple trees which line the fields.

Birthdays, anniversaries, guests, births, parties are all news—call the society editor about them.
