**TROY**-There's a new postoffice square feet and cost about \$50,000 in Troy's future.  
Postal officials have told the city commission they plan to ask that a parcel of property on Livernois or across from Lunge be returned to permit construction of a post-office, expected to cover about 5,800 square feet and cost about \$50,000. Troy presently is served by seven post office districts and construction of the new postoffice may result in these districts being reduced to one or two.  
The new building is expected to take from six to nine months to be constructed.
