

SOCIETY

SUBURBAN SCENE

(Continued from Page 1-C)

liest in the world and the final formal banquet of the American College of Surgeons together with the Swedish Surgical Society was held in the Golden hall of the city hall. Pages in medieval costumes called the large group to attention with trumpets, before each speaker was announced. The final speech was given by our American Ambassador to Sweden, Francis White. Dancing followed in an adjoining large hall in the city hall, from which an imposing marble stair-case led up to the golden hall. "It was an evening we will long remember," comments Mrs. Glowacki.

THE GLOWACKIS also visited the home of the famous sculptor, the late Carl Milles, who spent many years at Cranbrook, which is now a museum and has a wonderful collection of his works. Before boarding their ship, the new Amsterdam, for home the end of this month, they plan to visit Amsterdam, the Hague and Rotterdam.

Visit French Capitol's Oldest Store

During their stay in Paris, students of the Bloomfield Hills high school study tour were shown through Galleries Lafayette, one of the largest department stores in France, by Madame Beguis. Galleries Lafayette is the oldest store in Paris to keep abreast with the new fashion designs according to Madame Beguis, writes student Cathy Crockett. Madame also says the extreme chemise is rapidly "going out".

WOMEN'S SUITS are in pastel shades... most of them having short, boxy jackets. One of the newest materials is country cotton, light weight for suits and coats. Sports clothes in France as not as popular as in the states, comments Cathy. The three-piece play suit for women, an exclusive of Galleries Lafayette, has just come in style. Wigs are very popular and come in all colors.

CAMPING is a very popular pass-time in France and a new department store has just been added to the Galleries especially for the colorful equipment. After the tour the group was treated to champagne and sandwiches on the beautiful new roof-garden. It is now the main landing spot for helicopters from London, Brussels and the leading cities of France.

The Eyes Have It Where Motoring Safety's Involved

How's your eyesight? If you drive a car the condition of your eyes should be of great concern to you, naturally. Yet, according to a professor of ophthalmology, poor eyesight probably is one of the basic causes of traffic accidents.

vehicle accidents in 1956 were reported to have defective eyesight, according to the National Safety Council. Add to that the number of accidents that result from blocked vision, and you can see just how important sight is to motorists. IN MORE than a million auto accidents in 1956, not being able to see clearly was a contributing factor. In about half of the million accidents, obstructions on the vehicle — most important, which were rain or snow on the windshield — were factors.

At Newspaper Institute

Margo Mensing (left), 220 Larchlea drive, and Michal Forster, 316 Arlington drive, take a moment out from activities during the second division of the 12th annual High School Journalism Institute at Indiana university July 13-26. They are among 167 students from 57 high schools in Indiana, Ohio, Illinois and Michigan attending.
