Police recommend "policing with light" when you're away. TIME-ALL automatically turns lights on, at dusk, off later in the evening. Discourages prowlers because your home seems occupied. Works for hours, days, or weeks; without re-setting! Come see how it works.

**Talk About Traffic**

Birmingham, too, has traffic problems, as Birmingham Police Lt. DeLyle Service points out to Bruce Madsen, of the Michigan state university highway traffic safety center. Madsen conducted a regional traffic conference at Birmingham Community House recently, attended by over 100 Detroit metropolitan area traffic safety officials. Birmingham Police Chief Ralph W. Moxley was host to the session which covered latest developments in traffic laws and their enforcement. Among the subjects discussed by speakers was proper technique to be used by officers after halting traffic violators. Moxley said he made a tape recording of the speech, titled, "Officer-Driver Contacts", so parts of it could be used in local officer training.

**In case you think you might be stung**

Some people seem to feel that prescriptions are outrageously priced. The truth of the matter is this:

Last year the average American bought about 3 prescriptions for a total of around \$7.50. An average of less than \$3.00 per prescription. Sure, some drugs cost a lot. So do television tubes—for the same reason. They're expensive to manufacture. New and improved production methods, however, bring prices down. Penicillin, for example, costs only a very small fraction of what it did when it first came out.

Here at Wilson's you will find all prescription prices in accordance with the recommendations of the U. S. Veterans Administration, for government beneficiaries . . . AND we are always pleased to serve you.
