

Wanted— Youth Club Advisors

WESTWOOD — The Rev. Leo E. Totte, assistant pastor of Birmingham's Our Lady Queen of Martyrs parish, issued an appeal for at least 15 additional advisors to the parish's youth club. Fr. Totte stated that club activities would have to be reduced without additional help.

The club has 10 teen-age members, who are assisted by a "willing but sketchy" staff.

New volunteers gathered recently at a session where Charles Mason, CVO director of Oakland county outlined ways and means to implement present youth club activities.

THE NEXT DAY at a youth meeting, Fr. Totte was able to introduce a new adult advisor chairman, Edward J. Woods, who in turn presented the new vice-chairman, Mrs. Richard Egger and new counselors Mr. and Mrs. Richard A. Burkhardt, Mrs. Glenn Hicks, Mrs. Harry S. Angell, Jr., and Frank Pizal.

Others on the staff who were unable to attend were Mrs. D. E. Custance, Mrs. Frank Pizal, Mrs. Edward J. Woods, Richard Biswell and Richard Egger.

Since the club's inception several years ago, Fr. Totte has been its moderator and spiritual advisor, for which he has won the approval, and thanks of parish parents.

THE YOUTH CLUB is self-governed by its own elected officers. Counselors provide a "gentle but firm restraining influence" during the "count-down" as youngsters launch their projects.

Scheduled tomorrow for the parish youth club is a ballgame and winner roast at 6 p.m. on the school grounds, with dancing later. A communion breakfast will be held June 15.

Birmingham Telephone Lines

AL WARNER,
Michigan Bell Manager

ANOTHER SATELLITE

rocketed into orbit! Exciting news to read about, isn't it? And did you know that the Bell Telephone System plays a big part in these historical events? The transmitters inside the miniature "moons" use transistors, an invention of the Bell Telephone Laboratories. And a satellite radio that is supposed to transmit indefinitely—years and years—gets its power from solar batteries,

which Bell Telephone scientists invented to turn the sun's energy to electricity. These Bell System skills that contribute so much to the Space Age are the same ones that help make your telephone service the best in the world.

PLANNING A TRIP FOR MEMORIAL DAY WEEK END?
If so, you'll want to make the most of every free minute and leave all your worries behind. So plan the details in advance, by telephone. Make Long Distance calls to fix up reservations and settle the other details of travel. They're worth far more than their modest cost. And, if you happen to be delayed along the way, telephone ahead to say you'll be late in arriving.

MAYBE YOU'VE SEEN this unusual motor vehicle carrying the telephone company emblem. Unusual, because it has three wheels and is only a third the length of a family car. Because it is economical to run, can "turn on a dime," park almost anywhere, and get a repairman to his destination quickly, Michigan Bell is trying them out in larger cities... another example of how the company tries to keep down the cost of telephone service.
