**The LONG and the SHORT of IT**

This is straight from the horse's mouth—this paragraph or the horses being informed from Michigan State University, Oakland County Agricultural Agents Office, landscapers and lawn maintenance people. They say:

1. MOILING LAWN IN THE FALL
   A) BENT GRASS lawns should be cut short (1½ inch) until definitely dormant.
   B) NARROW BLUEGRASS lawns should be left at 1½ inches for winter. In the Spring, the first mowing should be at 1½ and the CLIPPING REMOVE.
   C) KENTUCKY BLUEGRASS lawns, those in which bluegrass and fescue predominate, should be cut at 1½ inches in the Spring.
   D) When bent grass predominates in a lawn, a decision must be made:
      1) If you want to continue the mixture, cut to 1½ inch, at least.
      2) If you wish to discourage all but the best, cut to 1½ inch.

Most of our flowering bulbs are in short supply. However, we are a lot on KING AGRICULTURAL, with the magnum yellow tulip, the early blooming tulip, and the flower bulbs like daffodils, crocus, and hyacinth. Each of these bulbs are available at 15¢ per 50. You may wish to call them.

Perhaps you are long on leaves and short on equipment. Well, the short price on the small blower is for the 1½ inch wide, 12½ inch long, and comes in a bag. It’s only $8.75.

2. This is neither long nor short—here nor there. It just happens that NOW, before the first snow and the time to grade your lawn, is the best chance to get MOLD.

Some grasses, like meadows, have a tendency to get moldy. This fungus shows up on the lawn as the spots of some brownish grasses and is showed green in getting. The cold water promotes the fungus and can, and often does, kill the grass.

Spray with TERRAM NOW.

5. Don’t want to mow strawberries; buy MARSH HAY, as it is weed-free and does not stunt. Don’t mulch potential bulbs, bulbs, evergreen and shrubs until the ground is frozen; not 2 or 3 inches.

7. We thought we were long on Christmas items, but we are already short on some items. Apparently, this Christmas shopping business has no intention of waiting until after THANKSGIVING.

9. Long-handed PRUNING SHEARS should be got and soon now. Short-handed ones are suitable for babies or little men. A short list on PRUNING is given for list of directions on "how to do it." Don’t be a prunor—be a pruner.

20. The DEMONSTRATIONS to be given in our store this year at Holly, Richmond, November 5th and 12th and 18th are planned to be interesting. Few basic Christmas decorations, such as wreaths, candle arrangements, etc., are to be demonstrated. No WORKSHOPS. Each of 10 demonstrations will be on the same basic items. We will try to have all the materials you may need depending on the length or shortage, of your imagination… or just plain kissing.

**Some Tooters Need a Tutor**

Lynn Smith (left) and Judy Newman, captivated with their music, just don’t seem to be picking it up. However, Linda Mustard and Pam March (right) broke into laughter last week while practicing on their recorders, an ancient instrument now being revived at Bloomfield Hills junior high school. The four组成 and the class members have only been playing the instruments a few weeks.

**Holy Name Places Fourth In Grid Rating**

BY CAROL PERICH

In their first game of the season, the Holy Name Lions lost to Detroit Scotti, 31-0, and now are preparing for the big showdown with Detroit Catholic Central. The Lions are hoping to make it a three-way tie for the Gridiron champion.
