Bikes are expected to be more popular than ever this Christmas. The Bicycle Institute of America says a bike has always been a popular Christmas gift and usually is placed under the Christmas tree by the buyer or the buyer's parents.

But bicycle sales this year are expected to exceed greatly, according to the institute, because of the widespread acceptance of the hybrid, or middle-wheeler, bike which blends the features of the heavier, balloon-wheeled bike with the ease of the lightweight bike. The middle-wheeler is available in both boy and girl models and features, among other improvements, easier steering and a gear shift.

The institute says the middle-wheeler can be tilted and steered without focusing on the wheel, which is 26 inches in diameter and makes it possible for a child weighing 60 pounds to have the same learning power a 100-pounder would have on a regular-type bicycle.

If you're looking for something for the boy on your Christmas list, you need go no further. Here, from A to Z, is a list to guide you in your search.

Air-Conditioned Space Helmet
Battery-Operated Pogo Stick
Cashmere Bond-Aids
Diamond-Studded Bullets for his gun
