Can you name one family in Birmingham who wouldn't like to own a swimming pool?

A message from *Esther Williams* PRESIDENT, INTERNATIONAL SWIMMING POOL CORP.

A huge new industry has been born in America.

It is revolutionizing the way Americans live, and promoting increased health and family happiness.

It is providing employment for hundreds of thousands, and it is making many far-sighted businessmen well-to-do or rich.

It is the home swimming pool industry. In just five years it has grown from a few million dollars to more than half a billion — and it has barely scratched the surface of the market.

The company of which I'm President is the No. 1 company in the industry. Our growth figures are even more phenomenal than the industry's. Our name is the best known and best respected by far.

A few days from today, one of my marketing executives will visit this city to interview businessmen, one of whom will be appointed as exclusive Distributor for this community. The man appointed will almost certainly be headed for enormous rewards in the next ten years — rewards not only of material gain, but of satisfaction in helping to develop a new, important industry.

There is no franchise fee. Construction experience is not a requirement. The man will be expected to make a modest investment in self-liquidating inventory with big profit potential.

If you are of good character, with a proved record of business achievement, I believe you will be interested in meeting with our field executive when he is here. To arrange an interview, write or wire me at the address below.
