

## Volleyball Teams Start Practice, Games at BHJS

By CHRIS GRYSOY

The inter-scholastic volleyball team stayed after school to practice Nov. 17, while the five intramural teams played their first group of games.

The inter-scholastic team was victorious Nov. 20 over Northville. The team members are Karen Macalpine, Lois Saylor, Judy Geyman, Sue Allen, Barb Stelzer and Finky Listman. Team substitutes are Judy Smith, Kathy Mitchell, Marjory Robinson, Barb Pulver, Kathy Eymon, Joan Thorlaen, Meredith Paxton, Barb Pollock and Gayle Graddis.

A meeting was held Nov. 19 for all members of the school newspaper. This gave them a chance to work on the next issue of the paper which will come out next month.

An all eighth grade talent assembly was held Nov. 21 during eighth hour. Seventh and ninth grade talent assemblies will be held in the near future.

## Matters

(Continued from Page 1-D)

day this State schedule will begin with a debate against Inkster.

Used to long months of collecting insects, biology students were shocked when they were asked to collect leaves instead. This is precisely what they did do, however, each student collecting 15 specimens of leaves or seeds for identification. Who knows, maybe next time—rocks!

Mr. Grotke's and Mr. Clayton's sociology classes recently visited the Pontiac State mental hospital to finish a unit the class was studying on mental illness. They had a conference with hospital staff members and then toured the building. This is one of many trips that these classes take to give some working knowledge of problems involved.

Miss Hayes' art classes are making Christmas cards to be sold to raise money for the art department. The ten different choices are being exhibited in the lobby, but the price has not yet been determined. The cards themselves are made by the silk screen process.

Forty-five BHJS Latin students in the classes of Mrs. Ladd, Miss Casselman and Mr. Graham recently took a field trip to the Detroit Art Museum where they saw a movie on the history of Greece.

Word For The Week—  
"If you tell yourself 'I can't' long enough, you will or it won't matter anyway!"

## Vaughan Students Collect for CARE

Mrs. Terry's fifth grade room at Vaughan elementary school has collected \$20 to send to CARE.

This money will provide food for three or four Korean families at Christmas. The students started saving for the holiday gift in September.

Mrs. Terry's students have sent CARE packages for the last six years.

Calvin Coolidge took the oath of office as president at 2:30 a.m. on Aug. 3, 1923, at the home of his father.

## GRAND OPENING

Sat. & Sun. Nov. 29 & 30

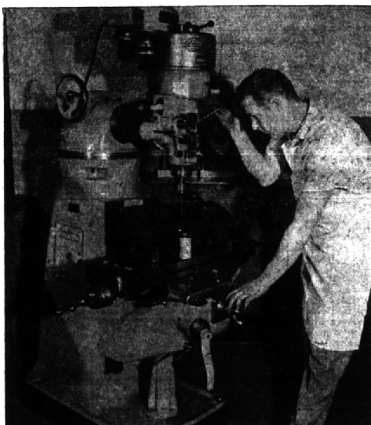

Here's what you've waited for! Not only a better equipped service than you'd get in California, but ON-the-Spot, economical way of getting all the power you paid for in all your cars—Sports, Passenger and Utility. FOREIGN & RACE ENGINES Inc., gives all motorists, dragsters, sports car enthusiasts and every day bumper-to-bumper drivers, the kind of service they have dreamed about. A team of expert mechanics operates a fabulous plant, including most advanced mechanical and scientific equipment costing Thousands of Dollars. With their amazing new chassis dynamometer, Foreign & Race engines, Inc., will give you a real engine tune-up, under well simulated driving conditions. There's no guess work. With this modern scientific marvel, you can see for yourself the full flow of engine efficiency which you can enjoy all the time.

Don't miss this great chance to inspect this amazing ultra modern competition car service center. Be our guest at 2373 E. EIGHT MILE ROAD between Ryan and Dequindre on Saturday or Sunday, November 29 and 30, between 8 a.m. and 10 p.m.

Are you getting all the power you paid for? The heavy duty chassis dynamometer (one of just a few in the Mid-West) will give you a true picture of your wheel thrust. It is capable of measuring up to 200 rear wheel horsepower. Capable of handling practically all trucks.

Our Bridgeport Vertical Mill not only bores accurate holes from 1/16th inch to 9 inch diameters, it also enables us to drill splines, keyways, etc. This machine is one of the many fine features in our ultra-modern machine shop.

From A to Z—Abarth to Zagato. Foreign and Race Engines Inc. is not just a name. It is an expertly staffed, fully equipped organization competent to handle every kind of foreign car and race engines.

For race cars of all types this 15 inch heavy duty lathe makes quick work of flywheel lightening, turning rear axle housing, rear-end jack shafts and many other large machining jobs.

Our engine rebuilding department is a race car man's dream. Complete engine rebuilding includes: cylinder boring and honing, sleeve installing, valve refacing and valve reseatting, valve guide knurling, connecting rod alignment and reconditioning and piston and pin fitting. With this modern up-to-date rebuilding equipment we can give the race car enthusiast his desire in motor horsepower, and cubic inches.

**Come and see for yourself**  
Meet known Indianapolis Speedway Drivers  
and local championship drivers.

- ... also Race Track owners and managers
- Drag Strip Owners and managers
- Sports car track owners and managers
- ... also members from all competition clubs
- ... plus Championship cars on display and expensive powerful foreign cars.

Refreshments, too!  
... and you may be a lucky door prize winner.

**YOUR FRIENDS WILL BE HERE—**

**WHY NOT JOIN THEM**

Sports and Race car enthusiasts—you will appreciate this engine dynamometer to give exact before and after measurements of fly wheel horsepower, up to 600 h.p. at 5,000 r.p.m. We searched the country and imported from England this powerful Heenan & Froude engine dynamometer. Locally known dynamometers will produce only 400 h.p. at 5,000 r.p.m.'s.

No need to stress the importance of engine balance. The model 354 R.V. Standard Bear Dy-Na-Me Balancer enables us to dynamically balance your crank shaft and fly wheels to within 1/100th of an ounce inch. We are one of the few who will give a written guarantee with our balancing.
