TODAY'S CHILDREN LEARN
 about the value of the telephone almost before they can walk. Here's a story of a six-year-old daughter who knew exactly what to do when she heard a man trying to break into the house. She ran to the phone and got the police. The fact that the intruder turned out to be her father (he had lost his keys) takes nothing away from her prompt action in a crisis.

THE TELEPHONE COMPANY has a special way of recognizing noteworthy deeds by telephone employees in time of crisis. Telephone folks have a long tradition of service to the public; but each year the company makes a practice of giving medals, cash and citations to employees for some particularly outstanding deed beyond the call of duty. This year, for instance, awards were given to a Pontiac telephone man credited with saving the life of an auto accident victim, and to an Ann Arbor repairman who rescued a man from fire.

A SMALL BOY called the Information Operator to ask for a local number. After she had supplied it, the operator suggested to the small boy that he would find it in the telephone directory. "I know," he agreed, "but I can't do that 'cause I'm standing on the directory to reach the telephone."

DO YOU HAVE TROUBLE reaching your phone? Do you sometimes find yourself upstairs when it rings downstairs? Did you know that you can save yourself and family any amount of rushing about? And very inexpensively, too. All you need is a bedroom extension phone. Move and more people are discovering the wonderful convenience and extra fun of having extension phones. How about calling our Business Office about it today?

PARTING SHOT: Psychiatrist: "Do you have trouble making up your mind?" Patient: "Well... yes and no."
