You know—"when the cat's away"—well the boss was in New York this week, so the staff had some fun with these notes for the column. Therefore, the views expressed herein are not necessarily those of the management.

When "Jack Frost" comes tripping around the trees begin to shed their leaves! To make your task of cleaning up after him lighter, we have:

- Lawn sweepers—(wonderful)
- Canvas and Burlap leaf carriers—(handy for lots of other things)
- Leaf Burners—(indispensable)

Also rakes of every type.

P.S. We just received our fall shipment of Peony Roots—excellent quality.

Flower arranging tools, frogs, posey clay, etc., will go well with the new pottery which will be arriving shortly.

Also in the event you are reluctant to have so many scratchy items on your shelves and furniture we have FLAN to prevent such an occurrence.

There is still time to put on fall fertilizer! We still are recommending our three (Agrico, Studers and Gr-Sod) to give the last satisfying shot for the year. We realize that hunting season is almost here and your thoughts may be wandering a little, but we still have a big supply of fertilizer which we would hate to inventory in November.

P.S. We have Lawn Beauty Spreaders to put this stuff on with.

Plant daffodil, narcissus, tulips, crocus, snow drop, mercurialis and lilies for early flowers in the Spring. We have a good assortment at the present time.

Any lily you plant or move make a solution of Fermate or Captain and soak bulb for 2-3 minutes before planting.

Pot or bring your amaryllis inside in a cool spot. Water lightly for 5-6 weeks.

Dig glads and let dry for 3-4 days. Dust with 5% DDT, and store in a cool place.

Dahlias—dig and dry for 1-2 days, pack in peat or vermiculite.

Cat Phlox and Peonies 3-4 inches high and burn stalks and leaves.

KITTY is spending more time indoors now making a properly filled litter box or tray a necessity. When we say "properly filled" we mean with KITTY-LITTER. (We've heard that somebody is still putting-up with sand—we have that too.) KITTY-LITTER absorbs and deodorizes and has a multiplicity of other uses around the house and garage—see side of package—comes in 5, 10, 25 and 50 lb. sizes. Trays too—disposable and permanent.

We are the drivers of McClellan-Ball. Our deliveries are twice a day, 9:30 A.M. west of Woodward and north of Maple; 1:30 P.M. east of Woodward and south of Maple. Any calls received before 9:00 and 1:00 will be taken care of that day.

We would appreciate your co-operation in letting us know if you are going to be away from home. Also, if you would call us if you do not need the material which we send automatically. With your help we will try to give the best service possible.

Gene and Ray

P.S. Please keep your four-footed friends shut up. P.P.S. We sell flea powder for them!!

Incidentally, if there are any mice playing around your place—try Mouse Nots.

Workshops Set For Volunteer Librarians

During the past two Wednesday mornings, Mrs. Jesse Sewell and Mrs. John Strauss, chairman of Birmingham elementary school libraries, have been the hostesses for a set of workshops conducted for volunteer and mother librarians of the Birmingham elementary school libraries.

Working with the boys and girls department of the Baldwin public library, they arranged the workshops in order to help volunteer library workers in solving problems of school library organization and to give them the opportunity to exchange ideas.

Birthdays, anniversaries, guests, births, parties are all news—the society editor about them.
