

New School Bus Law

(Continued from Page 1-A)

teaching distance away from the bus?

A: Yes—at least 10 feet.

Q: When can I start up again?

A: Only when the bus starts up again.

Q: When the bus driver signals you to proceed, or

A: When the red lights on front or rear of the bus no longer flash.

Q: Just where do I look for these red lights?

A: At the top of the bus, over the windshield and over the rear window.

Q: How do I recognize a school bus?

A: A school bus is painted national school bus chrome yellow with black fenders and trim.

Q: What if the bus stops at a traffic signal or where there is a police officer? Must I stop then, too?

A: No, but you DO have to slow way down to 10 miles an hour and proceed WITH CAUTION.

Q: What about these new divided highways?

A: Yes, if you are following the bus and about to overtake and pass it. You stop— you always did.

Q: But how about when I'm proceeding in the opposite direction and am across the divider strip?

A: In this case, on divided highways, when passing in the opposite direction,

you may pass without slowing or halting.

Q: Maybe you better tell me what the law means by "divided highway".

A: A "divided highway" is a street that has an "intervening space" between the roadways, like the Willow Run expressway, or a turnpike. Or it can have a physical barrier down the center to separate the opposing traffic flows, like the Lodge expressway. Or by a "clearly indicated dividing section so constructed as to impede vehicular traffic." This would be highways like Telegraph between Long Lake and 8 Mile.

Q: Speaking of Telegraph, what about that kind of a lane highway with only a double yellow line in the center?

A: That is NOT a divided highway, and you would have to stop in BOTH DIRECTIONS.

Q: One more last—but important—question: Is this law effective all over the state of Michigan?

A: It is effective in all UNINCORPORATED AREAS. Cities and villages are exempted—UNLESS you see a sign at the city or village limits which reads "STOP FOR SCHOOL BUS LOADING OR UNLOADING—city (or village) ordinance." In that case, you follow the ordinance outlined in the state law as explained above.

2-A THE BIRMINGHAM (MICH.) ECCENTRIC Sept. 11, 1958

Makes Sitting Easy

Above you see Chrysler Corporation's president, L. L. "Tex" Colbert, in one of his company's new 1959 cars with the revolutionary swivel seats. The entire Chrysler line for 1959 was revealed to 350 newspaper, radio and television representatives recently in Miami Beach. At the preview Colbert announced that he expects an increase of 30 per cent in car sales for 1959 over 1958. A full line of 1959 trucks was disclosed also. Prices will be announced in the near future, Colbert stated. He also showed Chrysler's small foreign car, the Simca, which it will offer the public this year.

'57 Level Nered in Building

The second biggest month of the year has boosted Birmingham's 1958 building permit valuation to within \$150,000 of the total for the first eight months of 1957.

Permits for the new motel at Hunter and Maple, four new single family residences and one new business provided the bulk of the \$495,000 permit valuation for August, city building inspector Andrew F. Butt reports.

Construction will begin shortly on the 58-unit motel, Birmingham's first, and completion is expected in April or May next year.

Rev. Kontz

(Continued from Page 1-A)

Harrisburg, Pa., and Pennsylvania, N. J., was home missionary pastor for six years in West Pullman, Chicago, and for another six years in Chicago, where he was pastor of the Lincoln Park Baptist church, Cincinnati, Ohio.

Dr. Kontz, who has done extensive camp, conference and assembly work with both adults and youth, is a former president of the Birmingham Community council, a civic group of 45 community organizations.

Also among his many responsibilities here: former president of the Birmingham Council of Churches; former president, Detroit Baptist Missionary society; former president, Detroit Baptist Pastors' union; former vice-president, Detroit Pastors' union, and member of the Birmingham council of churches.

Dr. Kontz is a member of the council's radio-telecommunications committee; a member of the Michigan Baptist state conference's Christian social progress committee, and a member of the executive committee of the Detroit Billy Graham crusade.

IN MAY 1958 he married Hannah K. Daulty, the daughter of a Baptist pastor. They have two children, Elaine Kontz Greenick, a graduate of Kalamazoo college, and Richard E. Kontz, a ministerial student at the same school.

Furnace Explodes, Woman Is Burned

A Birmingham woman, Mrs. John W. Michum, 1700 Pembroke, suffered third degree burns on her hands Wednesday morning when a stalled gas furnace she was attempting to light exploded.

Firemen say the furnace, newly installed, went off shortly after Mrs. Michum turned it on. She saw the pilot light was out, ignited a piece of paper and tried to light the furnace.

THERE WAS no fire damage to the home but soot was scattered through the building, firemen say. Mrs. Michum was treated at William Beaumont hospital.

School Board Meets

The Birmingham school board held a special meeting Tuesday night in open house for participation notes totaling \$850,000.

A bid by the Detroit Bank and Trust Co. was accepted.

The board also voted to retain the Aurora Gasoline Co. to supply fuel oil for the schools this year.

Special Hills Meeting On School Financing

Bloomfield Hills board of education will hold a special meeting in the next few days to take action on a long-range financial program to put the district on a sound operating basis, Supt. Eugene Johnson said yesterday.

At a special Monday session William Donnelly, chairman of the new citizens' financial advisory committee, outlined a program reaching until 1965 that would eliminate heavy borrowing and give additional funds for the district and for buying more classroom space.

Donnelly is to confer with other committee members this week before the special session at which he is expected to advise a school election to seek additional funds from the voters. Johnson said Donnelly is willing to keep taxes within the 20 mills.

THE BOARD is contacting Michigan State University for a survey to indicate whether future planning should be solely for additional classrooms at existing schools or should include an elementary school at the Quanton road site.

Monday the board also approved the low bid of Community Na-

Dispute

(Continued from Page 1-A)

health problems could be eliminated.

"THE PEOPLE in these communities seem to know that a drainage and health problem exists and want to do something about it, but nobody is willing to take the 'bit' in their mouth and get things done," he said.

The county and South Oakland cities were all served with the state order, but have the right to appeal to the courts if they wish. Heustis pointed out that the order did not interfere with the Supreme Court action, which was taken in the case because the court's decision would come long before the first construction deadline in December.

If the Supreme Court should rule in favor of Troy and Southfield, it would be up to either the health department or other cities involved to press for further court action.

Seek Land Use Guarantee Before Rezoning Property

Tentative consent to extending multiple zoning area on Woodward north of Bloomfield court, was obtained this week from the Birmingham city commission.

But before the zoning is made, the city is asking the property owner, Coker company, to figure some way to guarantee use of the property.

The company wants to erect about 30 terrace units. Under present zoning, it would have to erect units of less than 1,000 square feet. To get the desired 1,200 square feet, they need more extensive zoning area. The zoning ordinance permits only 40 per cent of multiple property to be used for floor area.

By extending the zone west to the Rouge river, but not building on it, the larger terrace units can be built, the owner points out.

Watch, Cash Taken From B'ham Home

A prowler took a \$100 watch and \$3 in cash from the home of James M. Scribner, 898 Hazel, early Saturday morning.

Birmingham police said the thief entered the house around 1 a.m. through an unlocked front door, and took Mrs. Scribner's purse, which was hanging from a doorknob in her bedroom.

Mrs. Scribner's son, James Jr., 18, found the purse later behind a house at 998 Hazel, but the watch and cash were missing.

Child Guidance Clinic to Hold Workshop Today

The Oakland Child Guidance clinic and its Birmingham and south Oakland branches is sponsoring an all day workshop with visiting teachers from all of Oakland county.

The workshop will be held at the main clinic offices at 113 Franklin, Pontiac, today from 9 a.m. to 4 p.m.

The Child Guidance clinic has as its main purpose the study and treatment of children with emotional and social problems of all kinds. Children of all ages, from birth to 16 or older if they are still in school, are eligible for clinic service.

THIS MEANS that the largest number of children seen in school and a close working relationship with the schools is necessary. The visiting teachers, as social workers in the school program, are called on to explore instances of personality disturbance noted by teachers and principals.

The visiting teacher acts as a liaison person between the home, the school, and the community, and in this capacity often calls on the clinic for service.

At the same time the clinic works closely with the visiting teachers in evaluating a child's school adjustment and in working out plans to help the child, particularly where adjustment problems in school may be involved.

Oakland County

has been fortunate in the sizeable increase in the number of visiting teachers in the last few years. Because there are now over 35 men and women serving in this capacity, it was felt that a workshop of the type planned would be helpful in increasing the effectiveness of the work of the clinic as well as the visiting teachers.

The program will include orientation to clinic services, followed by a case presentation by members to the clinic staff. The visiting teachers and the clinic staff members will then explore in small groups, problems arising in coordinating work and in the best methods of meeting these.

MISS MADELEINE Half, clinic director, announced that clinic staff members participating in the presentations will be: Miss Weisse, M. D., consulting psychiatrist; F. Robert Wollinger, chief clinical psychologist; J. W. McEachern, psychiatric social worker; Roger Olson, clinical psychologist; Mrs. Olive Thomas, Birmingham, social supervisor; Emil Zamorski, south Oakland advice branch supervisor; and Ruth Jaffe, psychiatric social worker.

Place 3 Youths On Probation In Liquor Theft

The three Birmingham youths who earlier this year stole several hundred dollars worth of liquor from Bloomfield Hills home were placed on a year's probation Monday afternoon by Circuit Court Judge Clark Adams.

Samuel B. Moray, Glen Orr and Ronald B. Morrow were also ordered to make restitution and pay \$50 costs each.

Pick Leaders For Torch Committees

Walker A. Williams, Ford Motor Co. vice-president and general chairman of the 10th annual Torch drive, today named Mrs. J. W. Weber, Jr., and Walter Buhl Ford, II, as chairmen for the fund-raising campaign's advance gifts committee.

The advance gifts committee is organized to assist in the Torch drive. It solicits about 800 prospects on a personal basis before the beginning of the campaign to be held Oct. 14 through Nov. 6. The committee will hold its first meeting at a luncheon for some 150 members at the Park Shelton hotel on Wednesday, Sept. 17.

Co-chairmen of the committee will be Mrs. Magnus M. Burgess, 1115 County Club Drive, Bloomfield Hills, and Jere B. Gillette, president of John C. Williams & Co., 2424 the Birmingham-Bloomfield road. Mrs. Harry L. Jones, 18255 Mulford, for the city of Wayne county west of Woodward avenue, and Mrs. Allen W. Morris, 1848 Woodland, Grosse Pointe, for that part of Wayne County east of Woodward.

ADVANCE GIFTS captains who will arrive in Grosse Pointe are: Fred J. Fisher, Jr., 1111 William C. Ford, Gaylord; W. Ellis, Jr., 1111 William C. Ford, Gaylord; George Monro, III, Mrs. Roy D. Chapin, Jr., Mrs. John N. Faling, 1111 William C. Ford, Gaylord; Harry J. Mack, and Mrs. F. Sibley Moore.

Xway

(Continued from Page 1-A)

Kept at obtain from engineers Hubbell, Roth, and Clark an estimate of the cost of working drawings for an internal system.

Commissioners acted to be in a position to proceed quickly after the state supreme court rules on the legality of the Oakland county department of public works.

KEPHT SAID the total cost of an internal system is expected to run about \$1,350,000.

Robert Stadler, city treasurer, reported that 94 per cent of current taxes have been collected as compared to 92 per cent at this time last year.

B'ham Women Lose Money Not Weight

The many Birmingham women who had contracts with the now defunct SlimZella Inc. reducing salon, 310 E. Brown are going to have trouble getting their money back.

William W. Page, attorney for the law firm which has handled SlimZella's legal problems, said he believed that creditors would gain very little by bringing bankruptcy proceedings against the defunct firm.

Page said the total value of equipment in the closed Birmingham salon, Detroit and shops would total less than \$900. He said that this wouldn't be enough to make restitution and pay \$50 costs each.

Birmingham Rated Superior in Two Safety Categories

Birmingham was rated superior in its population group in two categories in the national safety council's analysis of the city's 1957 safety activities report, prepared by city officials last Thursday.

The city received 82 and 81-point ratings, respectively, in keeping of accident records and police traffic supervision. Both scores were out of a possible 100 points and well above the national average.

Michigan state police representatives who explained the details for analysis at the meeting, awarded an achievement plaque to the Birmingham department for its maintenance of accident records. Sgt. William W. Peppers accepted the plaque. Chief Ralph Mosley earlier was given an award for police traffic supervision.

Birmingham was also rated above the national and population group average in the fields of traffic courts, school traffic, safety education, traffic engineering, public education, and safety organization.

THE ONLY one of the eight general categories analyzed in which Birmingham fell below average was death and injury record. The low (seven-point) rating was caused largely by three fatal accidents in 1957 compared to none in 1956 and two previous three-year average of one per year.

Ratings were based on ability to meet criteria established on the basis of the level attained by 30 percent of the cities in each size group.

Among the recommendations the council made in light of its findings was one that Birmingham's sewage court be made a court record so that juvenile offenders could be handled the same as adult violators.

It also suggested more street lighting facilities for the city. Mosley said the present plan for more lighting is on U. S. 10.

11,513 Attending Birmingham Schools

Birmingham school board officials counted 11,513 noses in the district's public schools last Friday, an increase of 451 over the end of June.

Because of late summer vacation, the district's final tally night in open house for participation notes totaling \$850,000.
