bringing Sundland to Detroit where his talent and experience are available to the automotive industry is a logical development of Reynolds' pioneering in helping manufacturers get the most out of aluminum's advantages in auto production.

He said Sundland's help is in addition to the posting, engineering development and research facilities traditionally offered by Reynolds. Sundland, 37, with MA and BA degrees in fine arts, has had his work sponsored by professional societies in exhibitions in Sweden, Denmark, France and the United States. Mastering silver, glass, metal, plastic and other mediums in furniture and industrial design, his studies and work took him to six European capitals as well as North Africa. He studied architecture in Scandinavia.

IN SWEDEN, where he served three years as a designer and stylist of automobiles, trucks, trailers and boats, he was a member of ice hockey and soccer teams. Before joining Reynolds, he was a designer for Kaiser Aluminum and Chemical Co.

Ross Roy Names Research Head

Edward Simon has been appointed director of research for Ross Roy, Inc., Detroit. Formerly with Bryan Houston, Inc. and Kenyon & Eckhardt, Inc. of New York City, Simon has been associated with the marketing developments on Lincoln-Mercury and many nationally advertised packaged goods accounts.

Simon has moved from Norwalk, Conn. to his new residence at 1844 Haynes, Birmingham.

Gets Trip West

Outstanding performance as top salesman in the insurance field has earned Raymond I. Menard of Birmingham an all-expense-paid trip to Los Angeles, October 5 to 10, to attend Farmers Insurance group's 30th anniversary jubilee at the home office.

HERE'S WHY REVOLVING AGITATOR LAUNDROMAT® IS BEST!

WASHES CLEANER!
There's no old-fashioned center-post. Clothes go inside the Revolving Agitator which lifts, turns, plunges them 50 times a minute, washes *all* the clothes *all* the time.

THE SAND TEST PROVES IT!

RINSES BETTER!
Revolving Agitator lifts clothes while soil and dirty water drain away from (never back through) them. Center-post machines strain it all back through the clothes.

THE SAND TEST PROVES IT!

CLEANS ITSELF!
Because of its patented design, the Laundromat cleans clothes better, then automatically cleans itself—ready for the next load! All sand, silt, lint go down the drain.

THE SAND TEST PROVES IT!
