**World's Best Synonym for "Quality!"**

In every land where automobiles are seen and appreciated, the Cadillac name has become a part of the language.

In fact, it would be safe to say that "Cadillac" is now an international synonym for "quality."

What a telling tribute this is to the motor car that bears this proud name—and that has given the Cadillac ideal such widespread recognition.

And certainly, that ideal of quality has never been more clearly evident—or more beautifully delineated—than it is in the current "car of cars".

First of all, it can be seen—in the majesty of its lines and contours . . . in the regal grace of its silhouette . . . and in the jewel-like elegance of its finish and trim.

Or it can be felt—in the brilliant response of its great new engine . . . in the incredible smoothness of its ride

. . . and in the ease with which it drives and handles. It can even be sensed—in the superb taste of its interior appointments . . . and in the matchless character of its beautiful fabrics and leathers.

And yes, it can be heard—in the marvelous quiet of its operation . . . and its truly wonderful silence on even the roughest of byways.

In brief, the Cadillac name has never before represented excellence in such great measure—as a personal appraisal will amply demonstrate.

We suggest you visit your authorized Cadillac dealer soon—and view your favorite highway through the windshield of a 1959 Cadillac.

It will give you a new understanding of how truly fine a motor car can be.
