BY IMPERIAL DECREE...your next fine car

Any of the three fine cars will say flattering things about your success, the state of your material affairs. But it may be that you're looking for a car that also comments candidly on the soundness of your judgment, your appreciation of superb engineering... and on the caliber of your taste.

Such a car is described here, briefly. We think you'll find the prospect of owning it thoroughly delightful.

It is good to look at... neither overdone nor underplayed. Not a line of its classic shape is borrowed from any other car. It is one of a kind.

But it has far more than classic styling.

It has a riding quality no other fine car in America can approach... because it is the only car in its class that rides on Torusion-Air.

It stands completely alone among all American cars, of any class or size, as the easiest to drive, most obedient and communicative automobile yet produced.

Its doors are wider and higher... its inner space more

considerate of hats and legs than either of its rivals. Its engine is leaner, less hungry... yet it develops more torque, more liveliness per pound than any other engine of the year.

It is built in a new plant where one man in every ten is a full-time Quality Control inspector. No car now in American production is as carefully built... as thoroughly tested.

It is Imperial.

Drive it. Compare it in any way with the other two cars in its class. Your dealer will arrange a test session at your convenience. We think you'll find the prospect of owning it thoroughly delightful.
