ALSO AVAILABLE IN SPACE-SAVING

SIDE-BY-SIDE PIECES ...

Turn a corner or set 'em side-by-side along a wall, these matching pieces are designed to afford maximum storage in a minimum amount of space.

There's a vast difference between this maple and the ordinary. First, the wood is obtained only from timber grown in the northern and eastern sections of our country, where the quality is vastly superior. Next, it's carefully seasoned and kiln-dried to prevent warping. Now it is ready for manufacture. Case sides, fronts, posts and rails are cut to precision dimensions. Tops, bases and drawer fronts are shaped to match authentic designs. Then with the painstaking care that reflects Jamestown tradition, each piece is expertly assembled. The crowning touch: finished and re-finished to achieve the rich, spirited golden brown tone of the finest solid hard rock maple . . . top with sparkling antique brass hardware and you have the very finest maple!
