

# Triangular-Shaped Building Means Reliable Druggist

The familiar triangular-shaped building which stands on the corner of Woodward and Maple in the center of Birmingham is a landmark which is immediately identified as Wilson's drugs.

The shape and locale of its build- landmark for Wilson's has pioneered drug retailing in Birmingham are not all that make it a ham since 1923 when Ralph Wil-

## Large Prescription Dept.

The spacious prescription department at Wilson drugs provides adequate room for their six pharmacists to work freely in preparing over 150 prescriptions daily.

son opened his first store.  
**MR. WILSON** was, until his death in 1954, a credit to his community and his profession, serving as president of the Michigan State Pharmaceutical association and assisting in countless numbers of civic enterprises.  
 The business was moved to its present location in 1935 and has made constant strides ever since. In 1955 an extensive remodeling was undertaken by the president and general manager, and son of the founder, Richard J. Wilson.

**DICK WILSON** is following close in his father's footsteps both in choice of a career and in service to the community.

He has served as president of the local chamber of commerce, president of the Exchange club and member of the executive committee of the Michigan State Pharmaceutical Association. Dick, always ready to try new ideas and experiment with progressive methods, has brought Wilson drugs far down its well-marked path to success.

Great emphasis is put on Wilson's prescription department with six full-time registered pharmacists filling more than 150 prescriptions daily.

This department is under the supervision of Ed Kirth, professional manager, who has been with the Wilson family for over thirty years.
