Understanding Is Important

There was a day, not long past, when it was disturbing to most families to speak of life insurance. As a matter of fact, it was called death insurance. Yet today it is an accepted part of family planning. We respectfully suggest that the time has come for the family to assume the same objective attitude toward funeral pre-arrangement.

Today's funeral director provides facilities and services that are modern, dignified and in good taste. He provides the highest type of personal service, both before and at the time of family crisis.

You should know about these services. Know the peace and satisfaction that can come from simple pre-arrangement and planning.

For private consultations, call Liberty 9-0500, or stop in for a visit. Qualified funeral directors will personally conduct you on a tour without obligation, of course.
