David, of Melton drive, Birmingham, vacationing in St. Petersburg Beach, Fla. Mr.

## Martha Pryor Weds John Thomas Hopkins

Martha Roberta Pryor became the bride of John Thomas Hopkins Saturday at Holy Name church. Breakfast followed at Plum Hollow Golf club.

The bride is the daughter of Mr. and Mrs. Robert Edwin Pryor of Detroit and Harrow, Ontario. Her husband is the son of Mr. and Mrs. John Paul Hopkins of Soledad drive, Bloomfield township.

The bride appeared in a silk organza gown featuring a lace bodice and her full length veil was secured by a Britton knot. She carried a spray bouquet of lily of the valley.

Maid of honor was Mary Jo Hopkins, sister of the bridegroom, and bridesmaids were Mrs. Harvey R. Peters, Jr., and Mrs. Charles R. Hopkins.

They wore eyelid embroidery organza dresses trimmed with pale blue satin ribbon at the waist and picture hats of white horsehair trimmed with blue satin streamers. They carried spray bouquets of blue and white delphinium.

MRS. JOHN T. HOPKINS

CHARLES ROGER Hopkins, brother of the groom, stood as best man. Seating the guests were Harvey R. Peters, Jr., Robert Stanleton, Robert Pryor and James Hopkins. Ring bearer was John Blaine Hopkins.

The newlyweds left for a trip to Colorado Springs where the groom will complete summer duty at Fort Carson.

WHAT DOCTORS SAY ABOUT

### Breast Lumps Dangerous— Male or Female

● Penicillin in Milk

Q. I have heard that much of our milk supply contains penicillin. How does it get into milk and is it harmful to drink such milk?

A. It is estimated that one out of four dairy cows in the U. S. has mastitis. Because the udder condition cuts down milk production, dairy farmers treat infected cows with penicillin. The antibiotic is later secreted in the milk. The Food and Drug Administration has recommended that milk containing antibiotics be considered "adulterated."

Penicillin-containing milk and other dairy products can cause allergic reactions in certain persons. There may be other as yet unknown harmful effects of consuming small amounts of antibiotic via food products. The problem is under study and should be solved as quickly as possible.

Answers do not necessarily reflect the opinion of all doctors. The diagnosis and treatment of disease is the function of the patient's personal physician. Questions directed to Science Editors, P.O. Box 390, Medicine Co. St. N. Y. 10, N. Y. will be incorporated in these columns when possible.
