Clark were re-elected to the board of directors.

Sold Attends Convention

Mr. and Mrs. George A. Sold, 4100 Walnut Hill, Troy township, were in New Orleans, La., recently, attending the 1959 International Conference and Business Show sponsored by the National Office Management Association.

The staff assistant at Detroit Edison and his wife were among the key executives who were invited to attend the conference.

Landscape Architects Meet Sat.

The Michigan Association of Landscape Architects will hold its Spring meeting on Saturday, at the home of Hrand Hampikian, 6947 West Outer Drive, Detroit.

The meeting will begin at 10 am with a short business meeting followed by a tour of Hampikian's property and gardens. After lunch, the guest speaker will be Dave Bonadere of the Sea Breeze Pool Co., of Detroit, who will discuss the pros and cons of swimming pools in the landscape design.

Following the speakers' there will

be a critique of landscape slides furnished by members and a round table discussion on professional rates and charges.

The meeting is under the direction of Lee Christianson of Plymouth, Jim McCutcheon of Birmingham and Russ Hurd of Detroit. Members are invited to bring their wives or guests. Hampikian should be informed of the number of people to expect.

Membership in the association is open to anyone who is a graduate Landscape Architect from an accredited school. Inquiries concerning membership should be sent to James McCutcheon, Stevens Building, Birmingham.

A \$75 million atomic electric power plant at Monroe, Mich. is scheduled to be completed by late 1960.

Hugs tighter on turns...

the road-hugging Wide-Track Pontiac!

Wide-Track Wheel design brings car and road into a new relationship. The wheels of a Pontiac are five inches farther apart. This widens the stance but not the car. There's a feeling of complete control, road-holding response. You're steadier, more secure,

balanced. Lean and sway disappear. It's the automotive advancement of the year and one of the big reasons why you see so many new Pontiacs these days. Hasn't the day come for you to drive this sleek beauty? The keys are waiting at your nearest dealer.

THE ONLY CAR WITH WIDE-TRACK WHEELS
Dotted lines show conventional wheel positions. Pontiac's wheels are five inches farther apart. This widens only the stance, not the car itself. Pontiac hugs tighter on curves and corners. Sway and lean are considerably reduced, ride is smoother, balanced, steadier.
