Program

(Continued from Page 8-E)

ever the large car will remain with us because of its greater comfort on long trips.

Chit-chat revealed that our present automobiles are here because they are tolerated rather than because the public demands them. Next week's program will include a talk by Richard H. Senter, who joined the FBI in 1942 and served along the East Coast during World War II. He is now handling major criminal investigation. Raymond Reilly will be moderator for the discussion group's hour on the subject topics and bonds.

SOFTBALL LEAGUES
The Birmingham Recreation department softball league is in full swing and has proven to be a hit. Plenty of action and competition composes the agenda when the teams meet at the field at St. James Park.

GIRL SCOUT CABIN
The Girl Scout Cabin at Springdale Park is available for overnight or cook-out for brownies or girl scouts in the Birmingham area. Contact the Recreation office for reservations.

Recreation-Senior Men's Club
Only about half of the senior men's club members were present June 12 to hear Marrell Phillips of the FBI discuss major criminal investigation. One of the interesting facts he revealed was that the FBI obtains convictions in 97% of its cases.

Payment Reilly explained the various procedures involved in trading on the open market. He described the many kinds of securities available.

This Friday Mr. Albert W. Bates will moderate the discussion group on the topic of faith. This group will suspend activities during July and August.

Receives Award

Bernad K. L. Klopfer, 1401 Echo lane, Bloomfield Hills, is one of 17 Wayne State university athletes who received major varsity awards for their participation on the university's 1958 track squad sophomore in Wayne's college of engineering. Klopfer attended secondary school in Fort Lauderdale, Fla. He specializes in distance events.

Copies of the summer program of recreation activities are now available at the recreation office in the Municipal building.
