## MAD MARCH

Apparently this is the same title as in 1958— but why not? It is a mixed up and messed up pe-

One should be putting on fertilizer but one is still putting on salt. One should be starting BE-GONIAS and GLOXINSAS but one is trotting off to the warmer climes. One should be helping us stay in business but one needs some help in doing this—so here is how . .!

We won't argue about the GRAY aspect of areas of your lawn which are exposed for the first time since Thanksgiving Day. It is caused by SNOW-MOLD, which, in turn, is caused by the cold water from melting snow and ice. It is a funcus and whenever seen, should be sprayed with TERSAN 75. Spray with a solution that will distribute 1 3 oz. to 100 sq. ft.

There is a lonely wrought iron dolnhin and bowl wall fountain and two 18" wrought i. .n decorative table trees in fomeone's home. They didn't buy them. It was g'stal. Also, if anyone tells you how fast the wind'is blowing and from what direction, ask them where they GOT this wonderful instrument. If they answer honestly please let us know.

All of our packaged seeds are now on display— Ferry's, Mandevilles and Northrup King's-the best in the field (at least none better).

The prices on the BIGBOY GRILL and the TROJAN POWER SPRAYER will go up with Dow-Jones Averages (even if they don't go up). This balmy weather gives us an urge not to lose so much on our investment.

This is a short writing but The Eccentric might double-space it if we are not careful. This is a test.

We thought last week's ad was a peach. But we can't get them to do it again, so—

Buenos noches
