

If more human beings, early in life, could acquire the unflinching habit of responding to the Apostle Paul's argument that "whatsoever things are TRUE... HONEST... JUST... PURE... LOVELY... GOOD... REPORT..." if there be any VIRTUE, and if there be any PRAISE, THINK ON THESE THINGS. For is it not reasonable to share too much of what society people do and think are otherwise?

Corvair

PUT THE ENGINE HERE

SO YOU COULD HAVE THE WORLD'S BEST COMPACT CAR!

You don't have to look very far to find why no other compact car can even come close to the riding comfort of a Corvair or equal its thistledown steering and glued-to-the-road traction. The answer's right under the sleek rear deck—Corvair's ultra-light six-cylinder horizontal power plant. So many wonderful things stem from this bold design decision—the softness of fully independent suspension at every wheel, full-six-passenger room with a floor that's practically flat, virtually perfect 50-50 weight distribution front and rear under the hardest braking, engine heat and noise behind the passengers—the list goes on and on. But the thing you'll know the minute you drive a Corvair is that this is a real revolution, not just a condensed conventional car. Try it; no matter what you're used to, you're going to be astonished!

"Oven-flavor" from top-burner cooking

This is probably the most useful utensil made. It's ideal for roasting meats and making stews. A self-heating tight cover eliminates all hand basting. You can cook economy cuts of meat as deliciously as the more expensive meats. Use it for deep frying, as a soup pot, or a general utility kettle. A handy trivet comes with each Magnalite Dutch Oven.

Magnalite cooks beautifully on one heat setting— saves fuel bills.
